Queen of Hearts Prize Board

This 14.25" x 22" Prize Board offers a superior alternative that is more fair to the player and easier to operate. Each board contains 54 die cut windows. On the back of the tabs covering each window are the full deck of cards plus two jokers. The board is laminated to prevent tampering. After a player has successfully picked the window containing the Queen of Hearts, simply throw the board away and start a new one.

To prevent any possibility of “insider information,” no two boards contain the same card pattern under the tabs, thus assuring total randomization and fairness.

Board printed on sturdy, heavy-duty fiberboard with an easel on the back for display purposes.

Bright Silver Finish Simulates Fine Silver

Nickel-Silver is a heavyweight alloy made of a special blend of nickel, copper and zinc. Although it contains no precious metal, it is bright silver in color, scratch-

resistant, nontarnishing and very durable. It is a great coin to use to commemorate 25th Anniversaries. In addition, it is economical enough to be used in any application to give the impression of a silver dollar.
